Robert and Joel,  
We own 140 acres on Middle Creek Rd. (442) We are only impacted by the corridor of the southern route touching our land. Please consider the northern route since you have failed to see all the houses along Middle Creek. Maybe you should think about driving them your selves unless you missed these houses on pupose, which I doubt. If you go to the tax records we are all there!! We get that the Valley needs more power and new lines. I am glad you plan to use solar. We are very concerned about the cancer risk from the lines. I had 2 friends die in Dallas that lived really really close to power lines. Please choose the northern route and help us out, thank you, Larry and Ellen Booth
